Pub 100-20 One-Time Notification	Centers for Medicare & Medicaid Services (CMS)
Transmittal 2191	Date: November 2, 2018
	Change Request 10460

SUBJECT: Multi-Carrier System (MCS) Prepayment Review File

I. SUMMARY OF CHANGES: Medicare contractors conduct prepayment review on Medicare providers by requesting and reviewing additional documentation to determine whether Medicare coverage criteria are met for certain claims. At times, these reviews will impact a provider financially. When this occurs, it is brought to the attention of the Centers for Medicare & Medicaid Services (CMS). Thus, CMS needs to have awareness of all prepayment reviews being conducted by Medicare contractors. Change Request (CR) 8224 created a flat file that could be uploaded to the Recovery Audit Contractors (RAC) Data Warehouse (DW) so that prepayment review information would be readily available to CMS. This CR updates the frequency and format of the existing flat file. As a result of this CR, the frequency of the flat file will be daily rather than monthly, and the format of the flat file will be updated to capture additional data elements as discussed during the CR10608 Analysis and Design (A&D) calls.

For Medicare Administrative Contractors (MACs):

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

I. GENERAL INFORMATION

A. Background: Medicare contractors conduct prepayment review on Medicare providers by requesting and reviewing additional documentation to determine whether Medicare coverage criteria are met for certain claims. At times, these reviews will impact a provider financially. When this occurs, it is brought to the attention of the Centers for Medicare & Medicaid Services (CMS). Thus, CMS needs to have awareness of all prepayment reviews being conducted by Medicare contractors. Change Request (CR) 8224 created a flat file that could be uploaded to the Recovery Audit Contractors (RAC) Data Warehouse (DW) so that prepayment review information would be readily available to CMS.
